## PROJECTS

### URL SHORTENER (FULL STACK)

<https://snappin.vercel.app/>

Developed SnapPin, a full-stack URL shortener using Next.js with NextAuth for secure authentication. Designed with Tailwind CSS for a responsive UI, it features custom short URLs, click analytics, and a user dashboard to manage URLs. Deployed on Vercel.

### PASSWORD MANAGER

<https://fortilock.vercel.app/>

Developed a password manager application using Next.js, incorporating secure password storage. Designed with Tailwind CSS to ensure a clean, intuitive, and responsive user interface. Leveraged Next.js and modern web technologies for a seamless and secure user experience. Deployed with Vercel.

### TODO LIST

<https://aq-todolist.vercel.app/>

Created a dynamic to-do list application using React. Features include adding, deleting, and editing tasks, displaying completed tasks, a theme changer, and data persistence through local storage, implemented with React and Tailwind – Visual Studio Code, GitHub, Vercel and Git Bash.

### SPOTIFY

<http://qureshispotify.freewebhostmost.com/>

Developed a fully responsive Spotify clone that allows users to listen to playlists while replicating core features such as music browsing, implemented with HTML, CSS, and JavaScript – Visual Studio Code, GitHub, Git Bash and host on Webhostmost.com.
